About Me

I always hear That you have to choose between intelligence or creativity, Science or art, either right side of the brain, or the left side. Software actually makes me use both of the sides, While developing a Web Application I could intelligently code it and creatively make it look stunning, plus the non-stop learning, and that means to me the purpose of existing.

Development Projects

< THE NASA DOC   - DEC 2018 />
Using NASA API portal that offers news and explore the universe. Pinpoints significant landmarks on the planets with geological information.

< THE SPACELISTER   - NOV 2018/>
A full stack web application based on school peer project for an adlister , me and my team decided to make it a space adlister.

< WEATHER PROJECT - OCT 2018 />
An up to 5-day weather forecast accomplished using Open Weather Map and Google Maps APIs.
